

Hello, my name is [Jon,
Honda]. I was born in [Aiea]
and I am [Japanese].

Three adjectives others
might use to describe me are
[nerdy, quiet, and friendly].

My favorite color is [blue],
my favorite animal is [dog],
and my favorite
musician/band is [eddie
vedder].

In my free time I like to [hike,
learn stuff, and go beach]

If I could go anywhere, I
would go to [a mountain]
because [solitude].

I am most worried about
[not achieving something
worthwhile].

I am most proud of [having
lots of different experiences].

My favorite thing about
myself is [curiosity].

When I was a kid, I wanted
to be [fire man].

I usually wake up at [7:00],
and go to sleep by [11:00].

I went to [University High School] for high school and [USC] for college, where I majored in [civil engineering].

The most interesting topics
I've learned about are
[American Literature].

Currently, I [am a project
manager].

I enrolled in this class
because [want to learn how
to clearly explain complex
data analysis results]

My experience with data analysis [company valuations (for fun); stormwater quality analysis (for work)].

I learn best when [I have a
question I'm trying to
answer].

I am most excited about learning about [communicating analysis results] because [knowing data analysis doesn't mean anything if you can't communicate what you are seeing].

After this class, I hope to
[know how to present and
communicate data analysis
results].

My dream job is [doing
something meaningful with
software development].

The philosophy I live my life
by is [let your results speak
for your strengths].
